How does the ADAC showroom's aesthetic and design philosophy align with your own vision and the preferences of your clients? "Their collection of timeless products, including fabrics, furnishings, and wallpaper, resonates with my approach. I believe in creating designs that not only reflect the client's aesthetic but also provide enduring beauty for years to come. Grizzel & Mann's offerings perfectly complement our commitment to providing quality products and services. This is just one of the many reasons it's such a pleasure working with them."

What were some positive experiences you gained from working with this ADAC showroom? "Grizzel & Mann are integral members of our team by extending their collective wealth of knowledge to assist with our interior design work. Their commitment to promptly providing essential information empowers us to educate clients on the unique specifications that enhance our design projects."

SHOWROOM:
GRIZZEL & MANN, INC., STE. 120, grizzelandmann.com

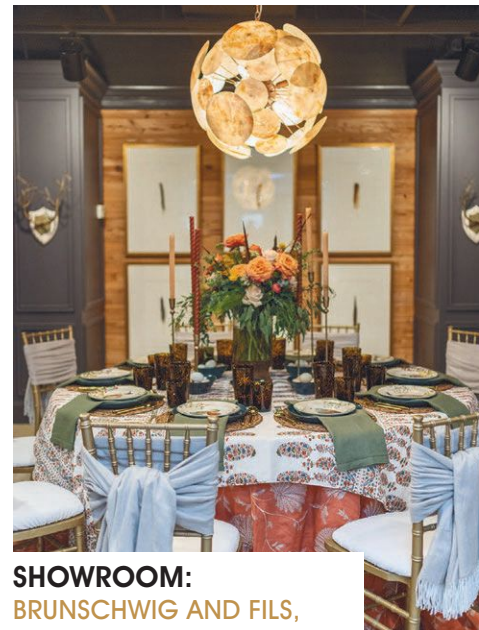

What did the process look like when collaborating with a To Live & Dine designer? "Susan Currie already had a well-defined vision for her tabletop and knew she wanted to feature Arte wallcovering. From that point, she narrowed her selection to the mahogany colorway."

What attracted you to collaborate with this particular showroom? "I started my design path working in the sample department at Brunswick and Fils in 2007. My love for traditional and timeless design grew from there! Not only is the brand iconic, but the showroom feels like home to me."

What were some positive experiences you gained from working with this ADAC showroom? "This showroom takes care of me. When I walked in, I was greeted with hugs, smiles, and the overall feeling of welcome. The entire team feels like an extension to my own personal business. We were both excited to partner for this event. The fabric selections were timely, using their newest collections and inspired by the late summer harvest feel I sought to achieve. Julie, Savannah and the team went above and beyond to help this vision come to life."

BRUNDSCHWIG AND FILS, KRAVET, INC. STE. 106, kravet.com

What did the process look like when collaborating with a To Live & Dine designer? "When Hope agreed to scheme a table for To Live and Dine, she came to us to see if we would work with her on supporting her tablescapes with some of our patterns and prints. Hope is not only a great customer, but she understands our brand's ethos. We sent her imagery from the new Cadenet Collection from Brunswick & Fils, which had yet to be launched, for her to review to see if it inspired some ideas for her table." CONTINUED...
